SKILLS

Software Engineering:
SOLID principles, Dependency injection, Software architect, Domain-Driven Design, Design patterns, SDLC, TFS, Git.

Programming:
ASP.NET MVC, .Net Core 2, Web API, C#, JavaScript, AJAX, LINQ, jQuery, SignalR, Angularjs, Angular 5, Reactjs ,JavaScript , Xamarin, Flutter,HTML,CSS3,bootstarp

ERP:
Microsoft Dynamics AX Development using MorphX X++, AIF , Microsoft Nav.

Database Management Systems DBMS:
SQL Server**,** Oracle, MySQL**,** Sybase, MongoDB

Portals & Cloud:
Dockers, Microsoft Azure, Microsoft Sharepoint server development & administration

Project Management and Leadership:
PMP (project management professional)
Agile Development using SCRUM

EDUCATION

BSc in Computer Science & Management Technology (2003/2004),

RESUME OBJECTIVE

Over 12 years of experience in developing and managing software solutions from small to large scale projects. with a deep understanding how to optimize implementation of software to enhance performance and/or response time by applying the best practice of software development (application architect, data structure, advanced algorithms) also by using agile methodologies delivered 15+ successful projects in multiple business domains like (e-commerce, educational, insurance, manufacturing, and motors).

EXPERIENCE

Technical Lead at **Integrant Inc.** that works as a software house with head office in the USA — May 2018 now

(www.integrant.com)

Responsibilities:

- Analysis, Plan and estimate product requirements and write the storyboard
- Coordinating, following up, and assigning tasks to project team members.

- Ensure the team is following best practices and code rules.

Technologies: ASP.net Web forms, MVC, WCF, C#, JavaScript, HTML 5, CSS3, Angularjs , WebAPI , SSRS , Telerik Controls , TFS , Git

---

Software support & consultation at **Iron Software.** It is a USA company that works as a software house specializes in developing Nuget Packages **(**www.ironsoftware.com**)** — Jan. 2017 Till Now

Part Time job - Remotely

Responsibilities:

- Leading the technical support team (2nd line support) to handle customer issues and give them technical consultation.
- Testing and evaluating releases for existing products (IronPdf, IronOCR, IronWebScraper, IronBarCode, IronXL.Excel).
- Create tutorials and samples demonstrating products features like (https://ironsoftware.com/csharp/webscraper/tutorials/webscraping-in-c-sharp/)

Technologies: ASP.net Web forms, MVC, .Net Core, C#, VB.NET, HTML 5, CSS3 , Linux , Dockers , Azure

---

EXPERIENCE

Technical lead & Solution Architect at **MotoSoft** that works as a software house specializes in Motors services software solutions (www.MotoSoft.com)	May 2017 till May 2018

Tasks:

- Analysis, Design, architect and plan new solutions
- Manage and monitor development team implementation process.
- Ensure team is following best practice and code rules
- Lead Agile Development Process and Ensure that we are on track.

Technologies: ASP.net MVC, C#, HTML 5, CSS3, Angular 5, type script, WebAPI, TFS , Git, Ninject

Development Team lead at **Smart Prestige Emirates** – Egypt Branch (www.iprestige.ae)	September 2015 Till May 2017

Tasks:

- Analysis, Design, architect and plan new solutions
- Manage and monitor development team implementation process.
- Ensure team is following best practice and code rules
- Lead Agile Development Process and Ensure that we are on track.

Technologies: ASP.net MVC, C#, HTML 5, CSS3, SignalR, WebAPI, TFS, Git, Autofac

Application Development Manager at **Saudi Silicon Company** (www.Siliconsaudia.com)	Nov. 2013 Till Sep. 2015

Tasks:

- Analysis, Design, architect and plan new solutions
- Manage and monitor development team implementation process.
- Ensure team is following best practice and code rules
- Lead Agile Development Process and Ensure that we are on track.

Technologies: ASP.net Web forms and MVC, C#, HTML 5, CSS3, SharePoint 2013, TFS

Development Manager at **Interactive solutions IT – KSA**	Jan. 2012 till Nov. 2013

Tasks:

- Plan and Open new markets channels
- Plan, Analysis, Design, architect and plan new solutions
- Manage and monitor development team implementation process.
- Ensure team is following best practice and code rules
- Lead Agile Development Process and Ensure that we are on track.

Technologies: Microsoft dynamics AX 2009, AIF, MorphX X++, Microsoft visual studio 2010, ASP.NET 3.5 C#, ASP.net Web forms, C#, SharePoint 2013, TFS, web services,

Achievements: increase company projects number and revenue for more than 400% annually by opening new markets channels and projects.

Senior Web Application Developer at **TravcoGroup – Egypt** (www.travcogroup.com)	January 2008 - January 2012

Tasks:

- Optimize and enhance Our Web Sites (SEO) Quality to reach top rank in most of famous search engines. In addition, with **Middle East Google Team** help we use Google Adware to maximize web site hits that affecting web site Rank.
- Analyze, Design and implement online real time booking engine for hotels and Nile cruises.
- Implement websites and intranet solutions for managing interconnection between Travco branches in deferent places and monitor customer and employees activates for best performance.

Technical Instructor at **Global Knowledge – Egypt** (www.globalknowledge.com)	August 2006 - January 2008

Subjects: Tracks MCIT, MCSD, Implementing Security for Applications, Microsoft Analysis Using (MFC), Developing Microsoft .NET App. For Windows Using c#, Implementing Microsoft ADO.NET App., ASP.NET 2.0 Using Visual C# 2005, HTML, Java Script, XML

Solution Developer at **Typical Design – Cairo** (www.td.com.eg)	November 2004 till April 2005

Tasks:

- Developing Windows and Web Application Using C# and ASP.net

PROJECTS

Integrant Inc.	**Forte Web:** is a web solution for US Wood Engineering production company, the online portal provides features of design floor, wall, and roof also analyze product depths, widths, and number of plies for spans and loads. **Role:** Team Lead **Technologies:** ASP.NET MVC, WebAPI 2, Angularjs, Html 5, bootstrap, Css3, MSSQL, Azure cloud (Blobs), Agile Scrum, client-side testing (Karma, Mocha, Jasmin). **BEST Life (Health insurance management system):** Best Life provides dental, vision and life insurance in the US. The system consists of two main applications, HIAS is an ASP.Net application to manage the insurance plans, coverage for customers and individuals, billing and invoices. The second application is the WCF windows service implemented to integrate with Federal and other states using X12 structures (834,820) templates for exchanging and process data. **BEST Detector:** new application implemented by me to help the operation team investigating issues and automate some operation team tasks. **Role:** Technical Lead **Technologies:** ASP.NET Web Forms, MVC, WebAPI, WCF, Telerik Controls, MSSQL and SSRS, JQuery, TFS/Kanban for operation, Agile Scrum for development tasks
Iron Software	**IronSoftware** is a software company specialized in providing libraries and packages that help .net developers. **IronPdf**: library to convert HTML to Pdf and has capabilities to edit on existing pdf **IronOCR**: library to extract text from image or pdf. **IronBarCode**: library to scan the barcode from image or pdf **IronWebScraper**: library to scrap online websites and extract its content. **IronXL.Excel**: library to open/create/manipulate excel files. **Role**: Consultation (provide deep testing and consult them for enhancements) and support **Technologies**: Dockers , ASP.Net Web forms, MVC, C#, VB.NET, Html 5, Css3, bootstrap
MotoSoft	**Moto Scan**: is solution that manage car service centers contain modules like • Reservation module: to enable car owners to reserve appointment. • Queue module: when car arrived in service center it queued into queue system. • inspection module: read car tests results from test instruments (by accessing machine local storage or by contacting machine API to get required information using machine SDK) and save them into car profile. **Moto Mart:** portal to sell and buy cars **Moto Rent**: portal to rent cars **Moto Parts**: portal to sell and buy cars spare parts **UMS Wrapper**: integration wrapper to integration all systems with online car information distributors **Role**: Team lead & Solution Architect **Technologies:** ASP.Net MVC, C#, WebAPI 2, Html 5, Css3, bootstrap, Angular 5, type script
Smart prestige	www.kwtauction.com : Real-time Car Auction www.reemflowers.net : Online Flower Store www.bcsconf.com : Online Conference website www.uaeflag.ae: Complete Content management system (CMS) for handling website dynamic content issues like Text, Photo gallery, create/update new pages, activate/deactivate pages, mange online competitions, etc. **Intranet Spinneys Employee Portal:** news, new vacancies, events **Role**: Team Lead **Technologies:** ASP.Net MVC, C#, WebAPI 2, Html 5, Css3, bootstrap , SignalR, Onion Architect

Saudi Silicon	**HR system:** employee directory and contracts modules **Technologies:** ASP.Net webforms, C#
Interactive solutions IT – KSA	**Employee material request (EMR):** integrate Alothaim Internal Portal HR system with Alothaim Dynamics AX ERP to let Internal Portal Employee users request martials from inventory Module in Dynamics AX and after Approval cycle in dynamics ax the requested item sent to employee and inventory affecting by this action. **Vendors Bank Payment Service (B2B):** integrate Alothaim Microsoft Dynamics AX ERP With Alahli NCB Bank B2B Gate way to Provide Alothaim finance Department with new feature to send vendor payments electronically using NCB online gateway directly from Microsoft dynamics AX ERP. **Role**: Development Manager **Technologies**: Microsoft dynamics AX 2009, AIF, MorphX X++, Microsoft visual studio 2010, ASP.NET 3.5 C#, ASP.net Webforms , C#, SharePoint 2013, TFS, web services,
Travco Group	**www.jaz.travel** : Online Real Time Hotel Booking engine. **Tasks:** 1- **@2008** Analyze, design implement Complete Content management system (CMS) for handling website dynamic content issues like Text, Photo gallery, create/update new hotel, activate/deactivate hotel, etc. 2- **@2009** analyzes, design and implement real time online booking engine that connects over 60 hotels with the web site in real time 2 way booking system that get availability and save reservation direct to hotel management system. 3- Design, develop and implement internal reservation monitoring and reporting system. 4- **@2010** Upgrade online booking engine and build XML interface to integrate the engine with Agent reservation system. 5- **@2010** integrate TUI Company website (Iberotel.com English version) by enabling Iberotel.com site visitors to book throw our Engine from TUI Website. 6- **@2010** adding New Features for web site and CMS and enhance Booking performance. 7- **@2010** Build Nile Cruise Booking Engine. 8- **@2011** Analyze, design implement Centralize Reservation System (CRS) for controlling all branches reservations. **Technologies:** ASP.NET 3.5 using C#, LINQ, Microsoft Visual studio 2008, SQL server 2005, Oracle 9i , XML Web service (for connecting hotels with live website) , Windows service (for monitoring reservations and verifying reservation saved in hotel system correct) **www.travcotravel.com** : online portal for travel **Tasks:** 1- @2009 Analyze, Design and Implement online agent tariff system (ATS) this system for view our (Hotels, Cruises, cars) tariff for registered agents. (ATS) has back end enables the operators to build dynamic tariff equation for each agent to view deferent rates based on contract with the agent. 2- @2010 Upgrade website and Integrate web site with Online Booking Engine exist in http://www.Jaz.travel **Technologies:** ASP.NET 3.5 using C#, Microsoft Visual studio 2008, Microsoft SQL server 2005 **www.prestigecars.net** : online car rent system **Tasks:** 1- Analyze, Design and Develop online reservation system **Technologies:** ASP.NET 2.0 using C#, Microsoft Visual studio 2005, Microsoft SQL server 2005 **www.madinatmakadigolf.com :** website for Madinat makadi resort contain resort facilities. **Tasks:** 1- Analyze Design and Implement Proshop online product viewer system. 2- Feedback module 3- Registration form to mail module

	Technologies: ASP.NET 2.0 using C#, Microsoft Visual Studio 2005, Microsoft SQL server 2005.
Freelance projects	1- www.akshef.com : in 2016 Online Portals for Booking Doctors (ASP.NET MVC) 2- www.esnk.org in 2015 Admission Management System (PHP) 3- www.elmawared.com: in 2010 Employment recruiting Service 4- www.kotobarabia.com in 2010 (Old Version Not currently online) online book store **Technologies:** ASP.NET Webforms, MVC, C#, HTML5, Css3, Microsoft SQL server **Online HR Portal for Government**: in 2016 I lead technical team to implement online HR portal contain modules (Employee directory, task management , contracting , recruiting , attendance ,etc.) , we build generic layer for attendance that enable admin to add attendance manually using upload excel , csv files or entering attendance using attendance form or automatic by connecting to attendance device local storage and fetch saved files or by using attendance SDK to get required information. **Role:** Team Lead **Technologies:** Asp.net C# MVC, SQL Server, HTML 5, Css3, onion architect **Aramco and KJO Training in 2013** Train more than 5 teams in ARAMCO on developing and creating projects. (I received thanks mail from ARAMCO IT Manager and Development team) **Google Cloud Notification service for NIS schools in 2015** Build android Mobile application that receives notification from online portal for school using GCM cloud service.
Articles	**Dynamic Controls:** Article Solve Dynamic Web Control Problem **www.codeproject.com/KB/miscctrl/Dynamic_Control.aspx** **Free Moving Forms:** Building Control Extending Free Move for Forms **www.codeproject.com/KB/miscctrl/Moving_Form.aspx**
Windows Application	**Clinic Reservation System (Desktop Application)** **Tools:** Microsoft Visual C# 2002, Microsoft Access 2000 **Pharmacy Management System (Desktop Application)** **Tools:** Visual C# 2002, Microsoft Access 2000

CERTIFICATES

Microsoft (70-573)	Microsoft SharePoint 2010, Application Development
Microsoft (70-536)	Microsoft .NET Framework 2.0 Application Development Foundation
Microsoft (70-528)	Microsoft .NET Framework 2.0 Web-Based Client Development Using C#
IBM Java (J2SE)	Diploma in Java Programming (J2SE) Desktop Application
Microsoft (70-316)	Microsoft Certified Professional in Developing Microsoft Windows Application Using C# 2003
Transcript URL	https://mcp.microsoft.com/authenticate/validatemcp.aspx
Transcript ID	(758997) **Transcript PWD** (Developer)

ATTENDANT COURCES

Dec 2009	**Global knowledge - Egypt** • 5060 - Implementing Microsoft Windows SharePoint Services 3.0 • 5061 - Implementing Microsoft Office SharePoint Server 2007
Jan 2009	**Google Online WebEx Sessions** Two sessions on enhancing web site for SEO Top Ranking, and how to advertise and get most hits with Google Adware.
In 2007 (50Hr)	**IBM Gates Center** Java (J2SE)

9-06till 1-07	**Global knowledge - Egypt** • Core Web Application Technologies with Microsoft® Visual Studio® 2005. • Advanced Web Application Technologies with Microsoft® Visual Studio® 2005. • Implementing a Microsoft® SQL Server™ 2005 Database.
2003	**(ASEC) Arab Swiss Engineering Company** Training on PLC, SCADA and AutoCAD

EVENTS

8 June 2010	Launching visual studio 2010 @ Grand Hyatt Cairo Hotel • Web and cloud development with visual studio 2010-06-09. • Improving developer – tester collaboration with visual studio 2010. • SharePoint and office development with visual studio 2010
4-2-07 till 7-2-07	(MDC) Middle East Developer Conference: Share Point Portal Session
3-10-02 till 5-10-02	Egyptian Electronic Game Federation (Eg. E. G. F.) • Organized & managed (93 Network Pcs installed in 14 hr)
5 till 12 Apr. 2006	African Stand-by-force Workshop on Command, Control, Communications and Information Systems (C3IS)

EDUCATION

Degree	BSc in Computer Science & Management Technology (2003/2004), From Modern Academy, General Grade Good, Graduation Year Grade Very Good, Graduation Project Grade EXCLLENT.
Graduation Project	Project is a **3D game (1's Person View)** & as team leader I got many experiences like: • AI (Artificial Intelligent) Programming design & implementation • Network Programming design & implementation • Leading, planning and managing skills.
Languages	Arabic Native English Very Good

PROFILE

Address	169 Gisr El-Swiss St, Heliopolis, Block No. 4, Cairo, Egypt.
Postal Code	11351
Birthday	January 14 1982
Mobile	+2 0111 445 6790
E-mail	Developer.ahmed@Gmail.com
Military	Completed
Marital Status	Married **Children** Two
