SKILLS

Project Management and Leadership:
PMP (project management professional)
Agile Development
Software Engineering:
SOLID principles, Dependency injection, Software architect, Domain-Driven Design, Design patterns, SDLC, TFS, Git.
Programming:
ASP.NET MVC, .Net Core, Web API, C#, JavaScript, AJAX, LINQ, jQuery, SignalR, Angular, Reactjs, JavaScript, Xamarin, Flutter, .NET MAUI, HTML, CSS3, bootstrap
ERP:
Microsoft Dynamics AX Development using MorphX X++, AIF, Microsoft Nav.
Database Management Systems DBMS:
SQL Server**,** Oracle, MySQL**,** Sybase, MongoDB
Portals & Cloud:
Dockers, Microsoft Azure, Microsoft Sharepoint server development & administration

EDUCATION

BSc in Computer Science & Management Technology (2003/2004),

RESUME OBJECTIVE

Over 16 years of experience in developing and managing software solutions from small to large-scale projects. with a deep understanding how to optimize implementation of software to enhance performance and/or response time by applying the best practice of software development (application architect, data structure, advanced algorithms) also by using agile methodologies delivered 15+ successful projects in multiple business domains like (e-commerce, educational, insurance, manufacturing, and motors).

EXPERIENCE

Solution Architect and Tech. Manager at **IBS (integrated binary solutions)** **March 2022 till now**

Responsibilities:

- Gathering system requirements from the customer.
- Architecting the solution structure and select solution technology and library the is suitable to use.
- Leading the team and ensure the coding best practice are applied.
- Handling changes, updates and supporting the ongoing operations.

Lead Software Support & consultation at **Iron Software.** **March 2020 till Feb. 2022**
software house specializes in developing Nuget Packages
(www.ironsoftware.com**)**

Responsibilities:

- Working with the development team in upgrading the current version of IronPdf package.
  Action taken is refactoring library core to be scalable by making it injectable so we can use multiple engines.
  Results our engine gives the advantage that does not exist with all competitors
- Working with the board of directories in planning to support our products
  Action taken is building multiple technical and tutorial guides, and supporting clients who post their questions on the Stack overflow website, and creating multiple channels of support on the website (chat and tickets) sample (https://ironsoftware.com/csharp/webscraper/tutorials/webscraping-in-c-sharp/)
  Results we gain high reputation and high rating between our customers and inside IT community
- Working with support team and development team.
  Action was taken to give training for the support team on how to investigate customer tickets and define if it is bug or misconfiguration or feature request, and manage the process between the support team and development team by fixing small bugs or reporting big bugs or new feature requests.

EXPERIENCE

Technical Lead at Integrant Inc. that works as a software house with head office in the USA (www.integrant.com)	May 2018 till March 2020
Responsibilities: Working with the forte web team as technical lead, **Actions** are taken is advised the customer to change some of the requirements to implement it in a different way to save him from future impacts and by applied code best practice. **Results** more trust from the customer and he hand us the whole project rather than be part of his development team and he opened another project with our company • Working with BEST Life Team as Technical Lead, **Actions** are taken is rearranged the team and learning them to use Agile Development Management methodology and how to apply clean code and best practice. **Result** in better process quality and better productivity and the customer requests big modules that are handled in a better professional way, and the delivery quality was better and time without delay

Application Development Manager at **Saudi Silicon Company** (www.Siliconsaudia.com)	Nov. 2013 till Sep. 2015
Development Manager at **Interactive solutions IT – KSA**	Jan. 2012 till Nov. 2013
Senior Web Application Developer at **TravcoGroup – Egypt (**www.travcogroup.com**)**	January 2008 till January 2012
Technical Instructor at **Global Knowledge – Egypt (**www.globalknowledge.com**)**	August 2006 till January 2008
Solution Developer at **Typical Design – Cairo (**www.td.com.eg**)**	November 2004 till April 2005

PROJECTS

Integrant Inc.	**Forte Web:** is a web solution for US Wood Engineering production companies, the online portal provides features of design floor, wall, and roof analysis product depths, widths, and a number of plies for spans and loads. **Technologies:** ASP.NET MVC, WebAPI 2, Angularjs, Html 5, bootstrap, Css3, MSSQL, Azure cloud (Blobs), Agile Scrum, client-side testing (Karma, Mocha, Jasmin). **BEST Life (Health insurance management system):** Best Life provides dental, vision, and life insurance in the US. The system consists of two main applications, HIAS is an ASP.Net application to manage the insurance plans, coverage for customers and individuals, billing, and invoices. The second application is the WCF windows service implemented to integrate with Federal and other states using X12 structures (834,820) templates for exchanging and process data. **BEST Detector:** a new application implemented by me to help the operation team investigate issues and automate some operation team tasks.

	Technologies: ASP.NET Web Forms, MVC, WebAPI, WCF, Telerik Controls, MSSQL and SSRS, JQuery, TFS/Kanban for operation, Agile Scrum for development tasks
Iron Software	**IronSoftware** is a software company specialized in providing libraries and packages that help .net developers. **IronPdf**: library to convert HTML to Pdf and has capabilities to edit on existing pdf **IronOCR**: library to extract text from image or pdf. **IronBarCode**: library to scan the barcode from image or pdf **IronWebScraper**: library to scrap online websites and extract its content. **IronXL.Excel**: library to open/create/manipulate excel files. **Technologies**: Dockers, ASP.Net Webforms, MVC, C#, VB.NET, Html 5, Css3, bootstrap
MotoSoft	**Moto Scan**: is a solution that manages car service centers containing modules like • Reservation module: to enable car owners to reserve an appointment. • Queue module: When the car arrived at the service center, it queued into the queue system. • Inspection module: read car test results from test instruments (by accessing machine local storage or by contacting machine API to get required information using machine SDK) and save them into car profile. **Moto Mart:** portal to sell and buy cars **Moto Rent**: portal to rent cars **Moto Parts**: portal to sell and buy cars spare parts **UMS Wrapper**: integration wrapper to integrate all systems with online car information distributors **Technologies:** ASP.Net MVC, C#, WebAPI 2, Html 5, Css3, Bootstrap, Angular 5, typescript
Smart prestige	www.kwtauction.com : Real-time Car Auction www.reemflowers.net : Online Flower Store www.bcsconf.com : Online Conference website www.uaeflag.ae: Complete Content management system (CMS) for handling website dynamic content issues like Text, Photo gallery, create/update new pages, activate/deactivate pages, mange online competitions, etc. **Intranet Spinneys Employee Portal:** news, new vacancies, events
Saudi Silicon	**HR system:** employee directory and contracts modules
Interactive solutions IT – KSA	**Employee material request (EMR):** integrate Alothaim Internal Portal HR system with Alothaim Dynamics AX ERP to let Internal Portal Employee users request materials from inventory Module in Dynamics AX and after Approval cycle in dynamics ax the requested item sent to employee and inventory affected by this action. **Vendors Bank Payment Service (B2B):** integrate Alothaim Microsoft Dynamics AX ERP With Alahli NCB Bank B2B Gateway to Provide Alothaim finance Department with a new feature to send vendor payments electronically using NCB online gateway directly from Microsoft Dynamics AX ERP. **Technologies**: Microsoft Dynamics AX 2009, AIF, MorphX X++, Microsoft visual studio 2010, ASP.NET 3.5 C#, ASP.net Webforms, C#, SharePoint 2013, TFS, web services,
Travco Group	**www.jaz.travel**: Online Real-Time Hotel Booking engine. **Tasks and versions:** 1- **@2008** Analyze, design implement Complete Content management system (CMS) for handling website dynamic content issues like Text, Photo gallery, create/update the new hotel, activate/deactivate hotel, etc. 2- **@2009** analyzes, design, and implement a real-time online booking engine that connects over 60 hotels with the website in a real-time 2-way booking system that gets available and saves reservation direct to the hotel management system. 3- Design, develop and implement internal reservation monitoring and reporting system. 4- **@2010** Upgrade online booking engine and build XML interface to integrate the engine with Agent reservation system.

	5- **@2010** integrate TUI Company website (Iberotel.com English version) by enabling Iberotel.com site visitors to book throw our Engine from TUI Website. 6- **@2010** adding New Features for website and CMS and enhancing Booking performance. 7- **@2010** Build Nile Cruise Booking Engine. 8- **@2011** Analyze, design implement the Centralized Reservation System (CRS) for controlling all branches reservations. **www.travcotravel.com**: online portal for travel **Tasks:** 1- @2009 Analyze, Design, and Implement online agent tariff system (ATS) this system for view our (Hotels, Cruises, cars) tariff for registered agents. (ATS) has back end enables the operators to build dynamic tariff equation for each agent to view deferent rates based on a contract with the agent. 2- @2010 Upgrade website and Integrate web site with Online Booking Engine exist in http://www.Jaz.travel **www.prestigecars.net**: online car rent system **www.madinatmakadigolf.com:** website for Madinat Makadi resort contain resort facilities.
Freelance projects	1- www.akshef.com: in 2016 Online Portals for Booking Doctors (ASP.NET MVC) 2- www.esnk.org in 2015 Admission Management System (PHP) 3- www.elmawared.com: in 2010 Employment recruiting Service 4- www.kotobarabia.com in 2010 (Old Version Not currently online) online book store **Online HR Portal for Government**: in 2016 I lead the technical team to implement an online HR portal containing modules (Employee directory, task management, contracting, recruiting, attendance, etc.), we build a generic layer for attendance that enable admin to add attendance manually using upload Excel, CSV files or entering attendance using attendance form or automatic by connecting to attendance device local storage and fetch saved files or by using attendance SDK to get the required information. **Aramco and KJO Training in 2013** Train more than 5 teams in ARAMCO on developing and creating projects. (I received thanks mail from ARAMCO IT Manager and Development team) **Google Cloud Notification service for NIS schools in 2015** Build an android Mobile application that receives notifications from an online portal for schools using GCM cloud service.
Articles	**IronWebScraper :** https://ironsoftware.com/csharp/webscraper/tutorials/webscraping-in-c-sharp/ **Dynamic Controls:** Article Solve Dynamic Web Control Problem **www.codeproject.com/KB/miscctrl/Dynamic_Control.aspx** **Free Moving Forms:** Building Control Extending Free Move for Forms **www.codeproject.com/KB/miscctrl/Moving_Form.aspx**

CERTIFICATES

Microsoft (70-573)	Microsoft SharePoint 2010, Application Development
Microsoft (70-536)	Microsoft .NET Framework 2.0 Application Development Foundation
Microsoft (70-528)	Microsoft .NET Framework 2.0 Web-Based Client Development Using C#
IBM Java (J2SE)	Diploma in Java Programming (J2SE) Desktop Application
Microsoft (70-316)	Microsoft Certified Professional in Developing Microsoft Windows Application Using C# 2003
Transcript URL	https://mcp.microsoft.com/authenticate/validatemcp.aspx
Transcript ID	(758997) **Transcript PWD** (Developer)

ATTENDANT COURCES

Dec 2009	**Global knowledge - Egypt** • 5060 - Implementing Microsoft Windows SharePoint Services 3.0 • 5061 - Implementing Microsoft Office SharePoint Server 2007
Jan 2009	**Google Online WebEx Sessions** Two sessions on enhancing web site for SEO Top Ranking, and how to advertise and get most hits with Google Adware.
In 2007 (50Hr)	**IBM Gates Center** Java (J2SE)
9-06till 1-07	**Global knowledge - Egypt** • Core Web Application Technologies with Microsoft® Visual Studio® 2005. • Advanced Web Application Technologies with Microsoft® Visual Studio® 2005. • Implementing a Microsoft® SQL Server™ 2005 Database.
2003	**(ASEC) Arab Swiss Engineering Company** Training on PLC, SCADA and AutoCAD

EVENTS

8 June 2010	Launching visual studio 2010 @ Grand Hyatt Cairo Hotel • Web and cloud development with visual studio 2010-06-09. • Improving developer – tester collaboration with visual studio 2010. • SharePoint and office development with visual studio 2010
4-2-07 till 7-2-07	(MDC) Middle East Developer Conference: Share Point Portal Session
3-10-02 till 5-10-02	Egyptian Electronic Game Federation (Eg. E. G. F.) • Organized & managed (93 Network Pcs installed in 14 hr)
5 till 12 Apr. 2006	African Stand-by-force Workshop on Command, Control, Communications and Information Systems (C3IS)

EDUCATION

Degree	BSc in Computer Science & Management Technology (2003/2004), From Modern Academy, General Grade Good, Graduation Year Grade Very Good, Graduation Project Grade EXCELLENT.
Graduation Project	The project is a **3D game (1's Person View)** & as a team leader I got many experiences like: • AI (Artificial Intelligent) Programming design & implementation • Network Programming design & implementation • Leading, planning, and managing skills.
Languages	Arabic — Native English — Very Good

PROFILE

Address	169 Gisr El-Swiss St, Heliopolis, Block No. 4, Cairo, Egypt.
Postal Code	11351
Birthday	January 14 1982
Mobile	+2 0111 445 6790
E-mail	Developer.ahmed@Gmail.com
Military	Completed
Marital Status	Married **Children** Three
